✧ Just Saying... ✧

The Quran says:

"4:34 . . . If you fear highhandedness from your wives, remind them [of the teaching of God], then ignore them when you go to bed, then hit them. If they obey you, you have no right to act against them. God is most high and great." (MAS Abdel Haleem, the Qur'an, Oxford UP, 2004)

Well. Do the feminists know this?? They were all over Augusta National Golf Club's all-male membership a few years back. Since her initial protest in 2003, Martha Burk's "Women on Wall Street Project" has been targeting companies

that have CEOs and other executives who are Augusta National members and have won over \$80 million in class-action lawsuits. Needless to say, she means business! And that was just for excluding women from membership; imagine their outrage when they learn Islam teaches their men to hit their wives! If this mosque is indeed built near Ground Zero, we must assume the above passage from the Q'uran will be taught. Why, there's no telling what massive protests will descend on Manhattan when Imam Rauf's mosque breaks ground! Right? Yeah, right...when pigs fly!

August Speaker:

Representative Thom Tillis

Since being elected to the NC House of Representatives in 2006, Thom has distinguished himself as a hard-working representative in the legislature. At the end of his freshman term, Thom was elected House Republican Whip, one of two elected leadership positions in the House Republican Caucus. Thom has established himself as a rock solid fiscal/free-market conservative and an outspoken opponent of tax increases and wasteful government spending.
